

## Areia Branca's 90 MW now fully in production!

Last 30MW tranche fully operational since February 16

Renewable energy-based electricity producer Voltalia (Euronext Paris) announces that its Carcara 1 windfarm (Areia Branca, Brazil) is fully operational since Monday, February 16. With a capacity of 30 MW, Carcara 1 brings Voltalia's global installed production capacity to 163.1 MW as of February 16, 2015.

The Carcara 1 windfarm includes ten turbines (3 MW each). The first turbine began exporting power to the grid on January 22, 2015, and the last one on February 16, 2015. This schedule is fully in line with the timetable announced at the time of the private placement on January 19, 2015.

Construction work is currently ongoing on two additional sites in Brazil:

- In São Miguel do Gostoso (108 MW): commissioning planned in Q2 2015
- In VamCruz (93 MW): commissioning planned in H1 2016

Voltalia will soon launch construction of additional capacity in Brazil in Oiapoque (see press release dated October 2, 2014), where production is expected to start as soon as Q4 2015.

« The commissioning of Carcara 1 marks the end of our first large construction project in Brazil and there is much more to come in a country where we have a solid foothold! » says Sébastien Clerc, Voltalia CEO.

**Next on the agenda : Q4 2014 and 2014 full-year revenues to be disclosed on February 27, 2015 post trading.**

### About Voltalia ([www.voltalia.com](http://www.voltalia.com))

- Electricity producer renewable energy, Voltalia develops, owns and operates power plants representing a total installed capacity of 163 MW in four energy segments: wind, solar, hydro and biomass.
- Doing business in France, Brazil, Greece and French Guiana, Voltalia draws on the power generation know-how and international expertise of a team of 102 employees.
- Voltalia is listed on Euronext Paris since July 2014 (FR0011995588 – VL TSA).
