## Commissioning of Voltalia's solar plant Castellet II in France

Voltalia (Euronext Paris, ISIN code: FR0011995588), an international player in renewable energies, announces today the commissioning of its solar plant Castellet II (3.8 MWp) located in the Var department, in Metropolitan France.

The solar plant of Castellet II (3.8 MWp) is now commissioned. It is equipped with high-performance solar panels which are among the most efficient on the market and were built in France<sup>1</sup>.

Awarded during the national solar tender CRE III organized in December 2015, the power plant benefits from a 20-year long-term electricity sales contract signed with EDF.

Located in the sunniest region of France, the solar plant is adjacent to the first Castellet plant (4.5 MWp) commissioned by Voltalia in 2013. The addition of this second power plant is part of Voltalia's strategy to generate additional value from the high-quality sites it selects. This approach allows for the optimization of the operation & maintenance costs of the installations.

Castellet II solar plant (Metropolitan France)

### About Voltalia ([www.voltalia.com](http://www.voltalia.com))

- Voltalia is an international player in the renewable energy sector. The Company produces and sells electricity generated from wind, solar, hydro and biomass power plants; it owns a total installed capacity of 508 MW.
- Voltalia is also a service provider, assisting its investor clients active in renewables at each project stages, from conception to operation & maintenance.
- With 440 employees in 17 countries, over 4 continents, Voltalia is able to act worldwide on behalf of its clients.
- Voltalia has been listed on the Euronext regulated market in Paris since July 2014 (FR0011995588 – VLTSA) and entered the Euronext Tech 40 index in April 2017 and the CAC Mid&Small in September 2017.
