Start of the construction of the PAGAP solar plant in France (5 MW)

Voltalia (Euronext Paris, ISIN code: FR0011995588), an international player in renewable energies, announces today the beginning of the construction of the PAGAP¹ solar power plant in Metropolitan France.

The PAGAP solar power plant has a total installed capacity of 5 MW; it is located in the Isère departement (38), in the Auvergne-Rhône-Alpes region. Situated in Saint Etienne de Saint Geoirs, the project will be built on land belonging to the Grenoble Air Parc joint development zone ("ZAC"²).

Awarded during the CRE III national call for tender, and initiated by the development teams of Martifer Solar, the project will be built by the Group, which will also manage the Operation & Maintenance of the plant. Commissioning is expected in Q3 2018.

Next on the agenda: 2017 full-year results on March 28, 2018
