Hydropower Civil Engineer

Become engineer in charge of global design and civil engineering for hydropower at Voltalia Center of Expertise.

You work on small hydro power plants in the Hydro team (engineering for conception and works supervision). The hydro team is a part of the Center of Expertise (Voltalia engineering team) specialized in Hydropower.

Your main objective are :

- Global design at feasibility stage;
- Design Civil part of hydropower plant in detail design;
- Write civil specifications and follow up consultations and selection of civil contractors;
- Civil works supervision;
- Osculation and maintenance of civil for HPP in operation;
- Manage external engineering if any;.

Qualifications

You have a master's degree in civil engineering, between 3 and 5 years of experience in an engineering company or working on hydropower.

Your experience range from feasibility studies to work supervision and O&M.

voltalia

• SOLAR • WIND • HYDRO • BIOMASS •

At Voltalia we are passionate about **renewable energies!** We are an electricity producer from wind, solar, hydro and biomass, and also a service provider to 3rd party clients such as **Development, EPC, O&M and Distribution.**

Today we are in **18 countries, split among 4 continents**, and offering a **global operating capacity** to our clients. We are listed on the regulated Euronext market in Paris since July 2014.

Do you have the energy we need ?
