IT SECURITY ENGINEER (M/F)

Our **IT Department** is looking for an **IT Security Engineer** who will have the following responsibilities:

- Help, technically, on the implementation of Security controls for Voltalia defined in the security policy;
- Follow up the control's implementation projects aligning project management and priorities with IT Manager;
- Provide information (reports) by collecting, analysing and summarizing data and trends;
- Be able to suggest new approaches to technical issues in terms of security;
- Participate in new initiatives, regarding security policies and controls;
- Assist in troubleshooting, diagnosing and repairing security issues;
- Macro vision of the company's security policy.

QUALIFICATIONS:

The ideal candidate will have/ be:

- Licentiate Degree;
- Security Training Certifications;
- At least 3 years of experience in similar tasks;
- Good knowledge of Office 365;
- Knowledge of Firewall Configurations (Fortinet);
- Knowledge of GPO's Configurations in Windows/Microsoft software;
- English proficiency.

At Voltalia we are passionate about **renewable energies!** We are an electricity producer from wind, solar, hydro and biomass, and also a service provider to 3rd party clients such as **Development, EPC, O&M and Distribution.**

Today we are in **20 countries, split among 4 continents,** and offering a **global operating capacity** to our clients. We are listed on the regulated Euronext market in Paris since July 2014.
