Business Developer Hydro/Solar (F/M)

The Kenyan Development team is looking for a Business Developer working on Renewable Energy Projects (Solar, Wind, Hydro, Storage and Hybrid projects in Kenya) with a focus on Hydropower and Solar projects.

You will:

- Identify potential hydro/solar sites in Kenya fulfilling the requirements of the Company
- Assess the energy generation potential, with the support of the Center of Expertise
- Realise sites visits and assess technical, environmental and social constraints
- Identify potential grid connection point and manage grid connection study
- Manage project Environmental and Social Impact Assessment studies
- Manage technical studies and surveys
- Evaluate the project viability, with the support of the Center of Expertise
- Conduct land survey and identify land ownership on the project area
- Manage potential land valuation
- Draft land contracts, with the support of the Legal department
- Lead the negotiations with land owners
- Manage the legal due diligence on land ownership, with support of the Legal department or external consultant
- Lead the process of land agreements signing
- Organize meetings with affected residents and organizations, local authorities, local representatives, to present the project and identify applying constraints
- Follow up during project development phase with all relevant stakeholders
- Follow up project's application, license, permits, approvals required for the realization of the project

Qualifications:

- Master degree related to the fields of Hydroelectricity, Renewable Energy, Environment or Sustainable Development;
- Good knowledge of MS Office;
- Fluent in Swahili, English

Personal skills:

- Organization and planning;
- Availability and sense of responsibility;
- Proactivity and creativity
