Financial Modeling Analyst

Our **Asif** department is looking for a **Financial Modeling Analyst**, who will have the following responsibilities:

- Develop financial models for the company's projects in Brazil, including monitoring the portfolio of brownfield and greenfield projects. The prior is focused on IRR and financing covenants monitoring, whereas the latter is mainly focused on tender processes
- Propose optimization alternatives in already structured financial models
- Propose and implement relevant sensitivity analysis for investment files
- Support the structuring of the formal Investment Proposals, to be submitted to the Investment Committee
- Create presentations for lenders and management updates/discussions

QUALIFICATIONS:

- Degree in Business, Economics or Engineering

SOLAR • WIND • HYDRO • BIOMASS • STORAGE

At Voltalia we are passionate about **renewable energies!** We are an electricity producer from wind, solar, hydro and biomass, and also a service provider to 3rd party clients such as **Development, EPC, O&M and Distribution.**

Today we are in **17 countries**, split among **4 continents**, and offering a **global operating capacity** to our clients. We are listed on the regulated Euronext market in Paris since July 2014.

Do you have the energy we need?
