Asset Owner (M/F)

Voltaia Greece is seeking an Asset Owner who will be responsible to oversee these assets and optimize their value to the business.

You will be responsible with the following responsibilities:

- Management of solar, wind, hydro and storage power generating assets in the Territory through pre-construction, construction and operation phases, to optimize the value of the assets for the business;
- Ensure that the assets are (i) financed in accordance with the most current, relevant Investment Plan, (ii) constructed in accordance with the price, schedule, specifications and terms of the relevant EPC Contract, (iii) operated and maintained in accordance with the price, schedule, scope and terms of the relevant O&M Contract, Annual O&M Plan and Annual O&M Budget, (iv) kept safe and secure at all times;
- Achieve the objectives, execute the strategy, address the priorities, and comply with the budget and priorities in to detailed operational and/or action plans for each of the assets, and to facilitate and document the outcome of Annual Reviews and oversee the implementation of action plans and recommendations stemming from those reviews;
- Act as representative of the Owner in front of EPC Contractor, O&M Contractor, Lenders, Government Authorities, Offtakers, Suppliers, partners and other key stakeholders, manage the contractual relationships with regulators, suppliers and subcontractors (both internal and external) and negotiate and resolve any claims stemming from such contractual relationships. And Build, foster and maintain positive and constructive relationships;
- Oversee the commissioning of the various assets, the mobilization of the O&M teams, the handover from EPC to O&M teams;
- Conduct regular asset reviews to track the technical and financial performance of the assets and prepare rectification plans / or recommendations / or address performance deficiencies;
- Assume responsibility for the optimization of Voltaia's assets in the Territory, with a view to the continual improvement in operating practices and indicators and the maximization of the asset's value over the medium and long term, including ambitious ideas such as the exploitation of regulatory niches, re-negotiation of PPAs, extension of land rights (including acquisition), repowering, refinancing, etc;
- Implement appropriate oversight to achieve the HSE objectives set for the Territory and for each of the assets, ensure that appropriate HSE training is put in place for relevant employees, and promote a culture of safety across all of Voltaia's assets in the Territory;
- Ensure that the assets are constructed and operated in accordance with Voltaia's quality procedures, that assets are kept secure, that operational procedures are adhered to, and to immediately report and rectify any such deficiencies;
- Manage the respective asset teams to ensure we have the necessary people. Foster a lean, efficient and performant working environment within the various asset teams, where employees feel valued and are encouraged to contribute to solutions, and where a respectful, safe and collaborative work environment is promoted at all times.

• SOLAR • WIND • HYDRO • BIOMASS •

At Voltaia we are passionate about **renewable energies!** We are an electricity producer from wind, solar, hydro and biomass, and also a service provider to 3rd party clients such as **Development, EPC, O&M and Distribution.**

Today we are in **18 countries, split among 4 continents**, and offering a **global operating capacity** to our clients. We are listed on the regulated Euronext market in Paris since July 2014.

Do you have the energy we need ?
