O&M COORDINATOR (M/F)

Our **O&M Business Line** is looking for an **O&M Coordinator**, who will have the following responsibilities:

- Management of all human and material resources of a specific area or region within a country where the PV plants are located;
- Compliance with KPI's contractually defined with customers and respective interfacing;
- Analysis and solution of technical issues that occur in a photovoltaic installation;
- Participate and lead, hands-on, on the most complex maintenance activities for troubleshooting and diagnostic of failures, with his respective team of field technicians;
- Management of guarantees with suppliers;
- Compliance with all company procedures and guidelines;
- Interface Grid Operators and all the local stakeholders involved in the implementation of O&M activities;
- Always be prepared to attend to emergencies on the PV plants he manages;
- Required and review documentation in matters of the HSE to subcontracting company;
- Inventory control to all the operational centers.

• SOLAR • WIND • HYDRO • BIOMASS •
