Electrical Engineer (F/M)

Our construction team in Kenya is looking for an Electrical Engineer to undertake a variety of tasks relating to setting up electrical infrastructure on site.

You will be dedicated to DC wiring from the solar modules to the junction boxes (up to 1500Vdc) and the transformer stations (Medium Voltage ac), but also the wiring linked to the ground connection, the CCTV systems and monitoring wiring (Low voltage).

Your responsibilities will be to:

- Understand the execute plans of electrical wiring and other electrical systems
- Communicate with the Engineering team for each breach
- Supervise the service providers
- Observe the on-labor dedicated to the conducts, cables routing, safety and distribution components to provide a constructive analysis
- Prevent breakdown of systems by inspections
- Perform effective troubleshooting and report malfunctions
- Report daily to the Project Manager and Site Manager

Qualifications:

- Engineering school degree, BS degree in Engineering
- Proven experience as an electrician
- Experience in industrial electrical systems
- Driving license
- Languages: fluent in Kalingen & Swahili – professional in English

Personal skills:

- Demonstrable ability to use electrical and hand tools
- Thorough knowledge of safety procedures and legal regulations and guidelines
- Excellent critical thinking and problem-solving ability
- Excellent physical condition and flexibility to work long shifts

Thank you for sending your application (CV + LM) by mail to: humanresources.intl@votalia.com
